

PRESS RELEASE

Servihabitat appoints Edelweiss Obiol as Finance Executive Manager and Change Manager

- *Edelweiss Obiol joins Servihabitat to lead the financial area of the Company along with the Change Management Department, after six months focused on developing strategic projects*
- *She has extensive experience in the financial sector and strategic and senior management roles*

Barcelona, February 2nd 2018.- Servihabitat, one of the major property and financial asset management companies, has appointed Edelweiss Obiol as Finance Executive Manager and Change Manager of the Company.

Edelweiss Obiol has a Bachelor's Degree in Business and a Master's Degree in Company Management from ESADE. She has over twenty years experience, mainly in the financial industry, assuming strategic and senior management roles. She also has a lot of experience in the financial industry that spans across multiple business cycles, leading process simplification initiatives, team rearrangements, change management and execution of strategic projects. Specifically, she worked in different positions at GE Capital during her sixteen years at the company, was the head of the financial area for three years and, in 2014, assumed the position of CEO. She has also worked in PPG Ibérica and Ernst&Young.

Now, after six months at the Company, in which she has focused on developing and implementing strategic projects to provide additional value to the customers, Edelweiss Obiol takes the position of Finance Executive Manager and Change Manager.

About Servihabitat

Servihabitat is one of the major *servicers* for comprehensive management of mortgage and property development loan portfolios as well as property assets. Its experience of over 25 years in the market and the high volume of assets being managed consolidate the position of the company as an industry leader.

A highly qualified professional team and a first-party technology platform provide Servihabitat with an independent and differentiated operational methodology capable of meeting all demands in the financial and property asset management cycle.
